

B-PHOS 10-40

b-Phos is a microgranular fertilizer designed to be safely applied at sowing, directly alongside the seed, without risk of phytotoxicity.

Its balanced formula in each microgranule provides nitrogen, phosphorus, sulfur, zinc, calcium, boron, and trace elements, promoting root development as well as rapid and uniform crop emergence.

The exclusive formulation of b-Phos, composed of soluble elements and mineral nanoparticles, ensures higher nutrient bioavailability and maximizes the uniform distribution of nutrients around each seed.

INSTRUCTIONS FOR USE:

Exclusive use as fertilizer.
Soil application only.

STORAGE:

Store in a closed, cool, dry place, away from sunlight. Keep in its original container, in a safe location and out of the reach of children. Do not store near seeds, food, or animal feed.

EQUIPMENT, VOLUMES, AND APPLICATION TECHNIQUES:

b-Phos is specially formulated for application with seed drills adapted to apply fertilizer at sowing, directly with the seed.

IMPORTANT:

-FOR FURTHER INFORMATION, CONSULT AN AGRONOMIST.
-DO NOT EXCEED THE RECOMMENDED DOSES, AS THERE COULD BE A RISK OF PHYTOTOXICITY.

PRECAUTIONS:

-KEEP OUT OF REACH OF CHILDREN AND UNTRAINED PERSONS.
-DO NOT TRANSPORT OR STORE WITH FOOD.
-DESTROY EMPTY CONTAINERS TO PREVENT MISUSE.
-IN CASE OF POISONING, TAKE THIS LABEL TO A DOCTOR.
-CONTAINER TREATMENT AND DISPOSAL METHOD:
Treatment and/or disposal must be carried out in accordance with applicable legal regulations.
-DO NOT REUSE THIS CONTAINER.

TERMS OF SALE:

1-The seller and/or manufacturer exclusively guarantees that this product contains the ingredients and levels specified on the label.

2-Since storage, timing, place, and dosage of application are beyond the control of the seller and/or manufacturer, any damages caused by storage or other conditions of use introduced by the user in a manner different from, or exceeding, the specifications given by the seller and/or manufacturer are not their responsibility.
